

CHERRY DW 9500 SLIM

The rechargeable designer desktop for demanding users

Models may vary from the image shown

The CHERRY DW 9500 SLIM desktop set meets even the highest demands. It inspires with state-of-the-art technology, best build quality and extra flat design. The design has a minimalist character and still shines with function and style.

Connect the extra flat design desktop set optionally via Bluetooth® or with the wireless USB receiver via 2.4 GHz radio. A slide switch on the mouse and keyboard makes switching child's play. For example, a notebook can be operated via Bluetooth® and a PC via wireless with the same desktop. The interference-free transmission with a range of up to 10 m is AES-128 encrypted - for keyboard and mouse alike.

The stylish keyboard and mouse set is powered by powerful lithium batteries. They last for weeks without needing to be recharged and are then supplied with new energy via a USB-A to USB-C cable. While charging, you can continue working with the wireless keyboard set without complications. Turn off the CHERRY DW 9500 SLIM wireless keyboard regularly when not in use to get even longer battery life.

For working comfort and maximum productivity, CHERRY SX scissor technology. The inimitable typing feel will put a smile on your face right from the first time you plug it in: the flat key travel with

clearly defined resistance enables fast and error-free typing.

If the six additional keys are not enough, the free CHERRY KEYS software is the right choice. With its help, special and F keys can be freely programmed. The included magnetic bar also has a positive effect on the flexibility. It can be mounted in seconds if a steeper angle is desired.

The wireless keyboard has built-in status LEDs directly in the relevant keys. So you can see at a glance if the raise, roll or num lock key is active or if the battery is running low. The ergonomic Bluetooth® mouse also scores with a two-color LED. This shows the battery status of the wireless computer mouse. Furthermore, it provides information about the charging status, the selected connection and the set resolution of the wireless mouse.

The 6-button mouse is worth a closer look. It has a scroll wheel and many technical extras. The ergonomic wireless mouse is particularly pleasant to use. The high-quality metal surface lies perfectly in the hand thanks to the large gliding pads, the mouse glides smoothly over the table. The generous thumb rest really pampers the hand and can counteract fatigue. The high-precision sensor works flawlessly on all surfaces - even glass tables are no problem. The resolution can be set to 600, 1000, 1600 or 3000 dpi in 4 steps by pressing the DPI button. Thus, the wireless computer mouse is also ideally suited for use on high-resolution 4K monitors.

The CHERRY DW 9500 SLIM is THE stylish companion for upscale demands - whether you work from home or in the office. Characteristic for the wireless desktop set is that it combines everything that CHERRY stands for: proven quality with sophisticated technology and chic design. Another plus point for the environment: The packaging does not use any plastic at all!
